### PITIFUL SIGHT WITH ECZEMA

"A few days after birth we noticed an inflamed spot on our baby's hip which soon began spreading until baby was completely covered even in his eyes, ears and scalp. For eight weeks he was bandaged from head to foot. He could not have a stitch of clothing on. Our regular physician pronounced it chronic eczema. He is a very able physician and ranks with the best in this locality, nevertheless, the disease began spreading until baby was completely covered. He was losing flesh so rapidly that we became alarmed and decided to try Cuticura Soap and Ointment.

"Not until I commenced using Cuticura Soap and Ointment could we tell what he looked like, as we dared not wash him, and I had been putting one application after another on him. On removing the scale from his head the hair came off, and left him entirely bald, but since we have been using Cuticura Soap and Ointment he has as much hair as ever. Four weeks after we began to use the Cuticura Soap and Ointment he was entirely cured. I don't believe anyone could have eczema worse than our baby.

"Before we used the Cuticura Remedies we could hardly look at him, he was such a pitiful sight. He would fuss until I would treat him, they seemed to relieve him so much. Cuticura Soap and Ointment stand by themselves and the result they quickly and surely bring is their own recommendation." (Signed) Mrs. T. B. Rosser, Mill Hall, Pa., Feb. 20, 1911.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a sample of each, with 22-page book, will be mailed free on application to "Cuticura," Dept. 20 K, Boston.

It is just outside of the city limits and the Swift fire district, consequently all water had to be brought from such a great distance that at the scene of the conflagration the pressure was too light to be effective.

## BUYERS BID FOR TOBACCO

WESTON HOLDS FIRST LOOSE LEAF AUCTION.

Prices Were Highest for Similar Grades Paid Anywhere in World.

Weston, Missouri.—Missouri's first loose leaf sale of tobacco began here at the warehouse of the Weston Loose Leaf Tobacco Warehouse company and before noon 70,000 pounds of Missouri tobacco had been auctioned by the basket.

When the morning bidding closed only about 10,000 pounds remained on the floor. Prices averaged about ten cents. The highest price was for the first basket, 15 pounds, which, for a sentimental reason, was bid up to 26 cents by the representatives of the American Tobacco company, Liggett & Myers of St. Louis and the independent buyers who attended the sale.

The highest regular price paid was 20 cents a pound for a 575-pound basket of Missouri bright burley, bought by W. A. Gray for the St. Louis firm. C. L. Head got the opening basket for the American Tobacco company. Several hundred farmers were in town and many of them attended the opening sale, at least 100 following the auctioneer from basket to basket in the big warehouse as he made the sales.

"The prices paid here are probably the highest paid for similar grades of tobacco in the world today," said A. P. Bernard, one of the promoters of the new warehouse company. The new plan of tobacco to Weston. It is better for the growers and for the buyers, giving a square deal all around. Weston handles about 100 cars of tobacco annually and the loose leaf market is expected to increase the yearly shipments to twice or three times that quantity. The sales by auction will continue all winter. The planters deliver their product by wagon and on every accumulation, perhaps daily, there will be a sale.

St. Joseph, Missouri.—The St. Joseph & Grand Island railway, after experimenting with gasoline motor cars on the eastern division for more than a year, has decided the cars are impracticable and probably will take them off and increase the number of steam trains February 1.

The company has been running two motors out of St. Joseph, one to Hiawatha and one to Seneca, Kan. Last summer passenger traffic was so heavy that it became necessary to substitute a steam train for the motor service a part of the time, and the change to be made now is for the same reason.

## FIRE DESTROYS SNAPP'S HOTEL

Guests Lost Clothing and Personal Effects, But All Escaped—Fire Hydrant Frozen.

Excelsior Springs, Mo.—Snapp's hotel, the largest in Excelsior Springs, was destroyed by fire. Mrs. M. W. Anthony of Kansas City, a guest, fell from the fourth floor when she attempted to descend on a rope. Her fall was broken by electric light wires. Mrs. Anthony's young daughter descended to safety just before her mother fell. Her hands were burned by the rope and she suffered from nervous shock.

There were about 45 guests in the house and all have been accounted for. Most of the guests lost their personal effects and some did not even take time to dress, escaping in their night clothes. The fire started from the big fireplace in the lobby at 2:40 o'clock. Clyde Gustine, night clerk, smelled smoke and turned in the alarm, then aroused the guests.

Hard work was necessary to save the Royal hotel, across the street. The window sash were on fire time and again, but men were stationed in every room and quickly put out the fire. A small frame house not more than ten feet from the Snapp escaped the flames.

The loss is estimated at \$100,000, with about \$75,000 insurance. The Snapp was opened four years ago last June. It was four stories in front and five in the rear, and contained 82 guest rooms. Mr. and Mrs. J. W. Snapp owned the building and the Dilley Hotel company owned the furniture and lease.

### OPEN FARM GATE LED TO KILLING

One Man Dead and Another Wounded in Quarrel at Shibley's Point, Mo.

Kirksville, Missouri.—Lee Mills, 21 years old, and a former student in the state normal, was brought to Kirksville and locked up, pending an investigation into the killing of Homer Hatfield and the wounding of Lee Branstetter at Shibley's Point.

Mills fled immediately after the shooting, but was captured. According to the story told to Prosecuting Attorney Weatherby, Mills was passing the home of Branstetter when Branstetter and Hatfield ran out and began to upbraid him for leaving gates open when he drove across the farm.

In the quarrel it is said Mills drew an automatic revolver and fired two shots at Hatfield, killing him almost instantly. The revolver was then turned on Branstetter, and he fell with two shots in the abdomen and one in the hand. Mrs. Branstetter says she ran from the house just as her husband fell and wrenched the revolver from Mills' hands and he then ran off through the woods. Mills says he shot in self defense.

### WOMEN PLAYED "WALLINGFORD"

Two Attractive and Plausible Young Ladies Got \$40,000 in Kansas and Missouri.

St. Louis, Missouri.—The police are looking for two attractive young women who are alleged to have fleeced a large number of persons in Missouri and Kansas through the sale of fake stock in a brick plant, said to have been near Topeka, but which has no existence so far as can be learned. A letter written by J. K. Mayberry of Topeka says that a friend invested \$1,300 in beautifully engraved certificates. He says that the brickyard was ostensibly started and that \$2,000 worth of work was done. The project was abandoned then, he says. Investigation here leads to the belief that between \$30,000 and \$40,000 was reaped by the two women promoters. Mayberry has furnished the present address of the women. They are said to be in St. Louis.
